

GABRIEL ANIETIE UDOH

SOFTWARE DEVELOPER | FULL-STACK ENGINEER

Lagos, Nigeria | +234 705 297 1057 | younganiel@gmail.com

GitHub: github.com/gabrielanie | LinkedIn: linkedin.com/in/gabriel-udoh

PROFESSIONAL SUMMARY

Results-driven Software Developer with 6+ years of hands-on experience designing, developing, maintaining and deploying web and mobile applications. Strong full-stack background across React, Next.js, Node.js, PHP/Laravel, React Native and Flutter, with practical experience integrating AI services and third-party APIs. Experienced in taking products from architecture and implementation through deployment, maintenance and optimisation, as well as collaborating with distributed teams and mentoring junior developers.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Vue.js, Tailwind CSS, shadcn/ui, Redux Toolkit, React Query, SASS, Bootstrap

Backend: Node.js, Express.js, PHP, Laravel, PostgreSQL, MySQL, MongoDB, Firebase, Prisma, REST APIs, GraphQL, Redis, Socket.io, Zod

Mobile: React Native, Expo, TypeScript, React Navigation, Push Notifications, Geolocation, Offline Caching, Flutter, Dart

AI & Integrations: OpenAI API, Claude AI (Anthropic), Whisper / Google Cloud Speech-to-Text, AI Prompt Engineering, Amadeus API, Paystack, Stripe, Mailchimp

DevOps & Tools: Git, GitHub, Docker, AWS, Azure, Vercel, GitHub Actions, Nginx, Vite, Figma, Radix UI, Formik, Yup

CMS & E-commerce: WordPress, WooCommerce, Elementor, Headless CMS, SEO, Performance Optimisation

PROFESSIONAL EXPERIENCE

Full-Stack Developer — Maintenance, Support & AI Integration

Musenotes | Remote | Jan 2026 - Present

- Maintain and enhance a live AI-powered audio/video transcription and content-analysis platform, contributing across frontend, backend, AI integrations and infrastructure.
- Deliver full-stack features, performance improvements and bug fixes across React.js and Node.js, improving platform stability and reducing development backlog.
- Manage CI/CD workflows and cloud infrastructure updates to support reliable deployments and platform scalability.
- Integrate and optimise third-party AI APIs, assessing model performance and implementation efficiency.
- Create and maintain technical documentation covering APIs, infrastructure and deployment processes for engineering knowledge transfer.

Senior Full-Stack Developer

A Venture Studio | Remote — London, UK | Oct 2024 - Jul 2025

- Led end-to-end engineering for two startup products, owning architecture, implementation, delivery and technical coordination.
- Architected and shipped OnTheGo, a cross-platform React Native mobile application with real-time location services, push notifications and offline caching, contributing to a reported 40% increase in user adoption.
- Designed and developed Node.js/Express REST APIs with MongoDB for location-based application data and services.
- Led a distributed team of four engineers, establishing code-review practices, sprint cadence and technical decision-making processes.
- Built Rate'O, an anonymous workplace-feedback platform using Next.js, TypeScript and TanStack Query, with internationalisation, role-based access and live analytics.

Frontend Developer & Coding Instructor

Melodia Coding Academy | Lagos, Nigeria | 2023 - 2024

- Developed and maintained responsive client web applications using React, Vue.js and modern CSS frameworks for 10+ active clients.
- Designed and delivered project-based training in HTML/CSS, JavaScript, React and Git, mentoring 30+ students.
- Improved frontend performance through code splitting, lazy loading and bundle optimisation, reducing average page-render times by approximately 30%.

Freelance Software Developer & Digital Strategist

Self-Employed | Remote — Nigeria & UK | 2018 – Present

- Delivered 20+ production websites and e-commerce platforms for SMEs, handling requirements, development, integrations, deployment and ongoing support.
- Integrated payment gateways including Paystack and Stripe, as well as third-party APIs to support secure transactions and automated workflows.
- Provided technical consulting alongside digital strategy, SEO and brand-development services, acting as a technical partner for clients.

Web Developer Intern

Firstlincoln Technology | Lagos, Nigeria | 2020 – 2022

- Collaborated with senior developers to build and maintain client-facing web applications with emphasis on responsive design and frontend performance.
- Implemented interfaces using HTML5, CSS3, JavaScript and Bootstrap, while assisting with PHP/Laravel backend development and authentication.
- Applied caching and asset-optimisation techniques that reduced average page-load times by approximately 35%.

EDUCATION

Bachelor of Science (B.Sc.) — Information Technology

National Open University of Nigeria | 2019 – 2024

Relevant coursework: Software Engineering, Database Management Systems, Artificial Intelligence & Data Science, Networking & Security.

PROFESSIONAL FOCUS

Full-Stack Web Development • Mobile Application Development • SaaS & Enterprise Systems • AI Integration • API Development & Integration • Software Architecture • Performance Optimisation • Technical Leadership
